Connecting Capital Markets

ABOUT THE SUMMIT

Road to Recovery:
Sustainable Funding of Pension and Social Security Funds
Policy * Regulation * Investments

Social security and retirement funds experienced unprecedented member withdrawals and disbursements during the global pandemic. How can we ensure financial viability and funding of retirement funds' future liabilities?

Co-Hosted by the Hong Kong Retirement Schemes Association (HKRSA) and supported by the Hong Kong Trustees' Association, this year's session highlights participation and collaboration of the world's and Asia's leading asset management companies, regional pension plan sponsors/employers and asset owners.

The Summit provides an exclusive venue where strategies, successful implementation of innovative asset allocations, and concerns affecting the retirement industry, both in retail and institutional sectors, are discussed in a private and confidential environment.

The Summit provides a 360-degree in-depth coverage of the industry with participation and support of key stakeholders: Policy, Regulatory, Asset Owners (Pension Funds, Social Security Systems, Insurance), Plan Participants and Investment Management companies' leaders.

Sessions and meetings are private and confidential, closed to media, and are designed to produce actionable outcomes that would benefit Asian pension plan participants and asset owners. All discussions are under the Chatham House rule. The Summit is by invitation only.

PROVISIONAL AGENDA
