

HKTA seminar: Virtual Assets – Becoming Mainstream?

This seminar will discuss the evolution of virtual assets, from the first Bitcoin to thousands of coins and variations available today. As investor appetite has grown, regulators have had to balance encouraging innovation with protecting investors. Hong Kong aspires to be a virtual asset hub and has enhanced its regulatory regime over the years. To keep up-to-date with developments in this fast-moving area, we will discuss: –

- The overall regulatory framework
- Recent failures such as FTX, JPEX and the SFC's crackdown on various crypto-exchanges
- What should custodians and trustees be aware of, when dealing with virtual assets
