The Hong Kong Trustees' Association (HKTA) is pleased to invite you to an insightful discussion on the use of trusts by international investors.

In an increasingly interconnected world, global investment opportunities abound, yet navigating the complexities of cross-border investments remains a challenge for trustees, settlors, and beneficiaries alike.

This event will explore the key opportunities and potential pitfalls associated with investing overseas through family trust structures, with a particular focus on investments in Hong Kong, Singapore, the United Kingdom, and the United States.

Following the discussion, you are warmly invited to join us for networking drinks, generously sponsored by Stephenson Harwood.
