

**FIRST GLOBAL INVESTOR FORUM
ON CLIMATE CHANGE**
13-14 JUNE 2013 HONG KONG

Invitation

On behalf of the Global Investor Coalition, the Asia Investor Group on Climate Change is pleased to invite you to attend the First Global Investor Forum on Climate Change to be held at the Four Seasons Hotel in Hong Kong on Thursday and Friday, 13th-14th June 2013.

“Like many of history's greatest challenges, the climate crises carries with it great peril and great opportunity. The First Global Investor Forum on Climate Change poses a unique opportunity for the financial institutions from around the world to exchange views and experiences.”

Al Gore – Co-founder and Chairman, Generation Investment Management

The Forum marks a historic moment in the growing efforts of the international financial community to address climate change. For the first time, leading investors and financial institutions from both developed and emerging markets will come together globally to discuss developing trends in climate risk management and low carbon investing.

The Forum will explore climate related risk and investment opportunities in Asia and globally, as well as national policy development, UN and multilateral initiatives, risk mitigation and partnership structures for investing in climate mitigation and adaptation measures and projects.

The Forum is an invitation only event. Further information can be found at the [Forum website](#) or email juliette@asria.org.

Registration

[Register](#) now to confirm your attendance at the Forum. **Password for registration is *Forum2013*.**
